

• I think energy is when electricity go together and make energy.

SUN

I'am A Energy Saver

EARTH

SATURN

ELECTRICITY

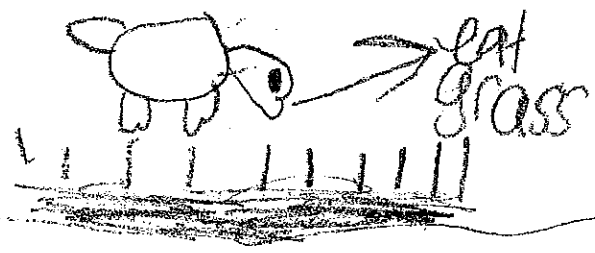

Broken Wire

FIRE

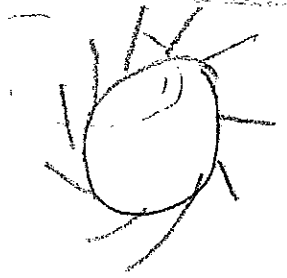

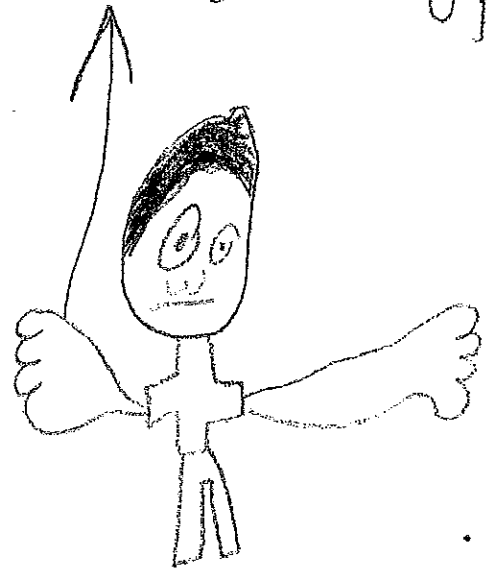

STEAM GAS

Caution this movie has been modified from its original

When you move you waste energy.

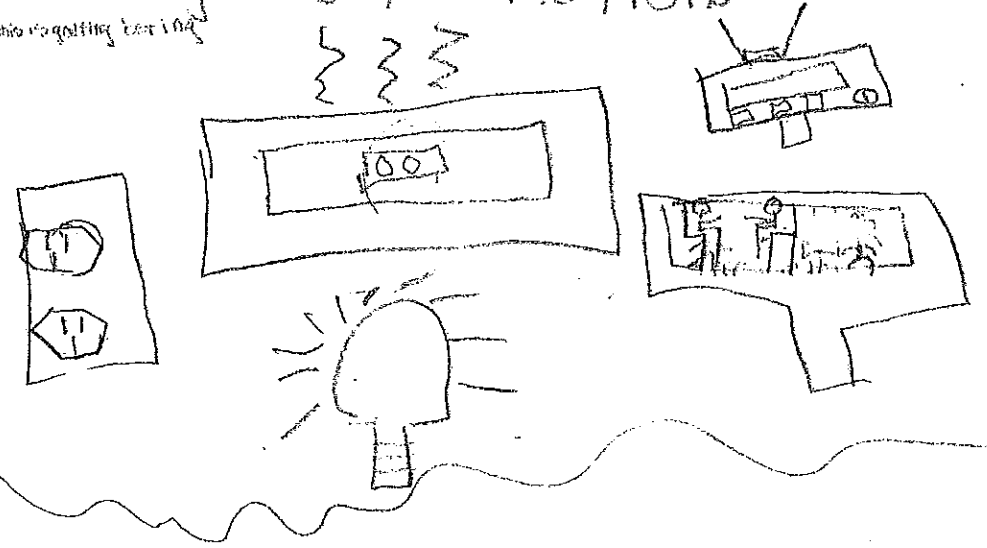

waste energy

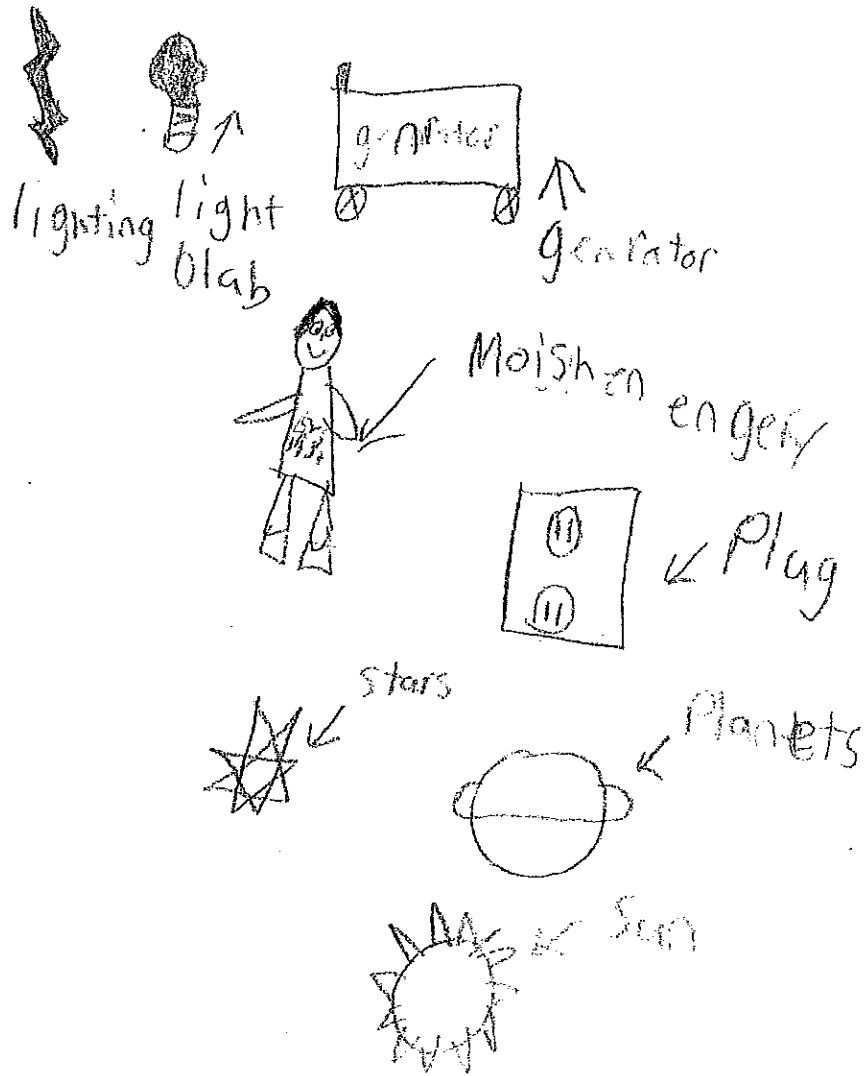

BAZILLA

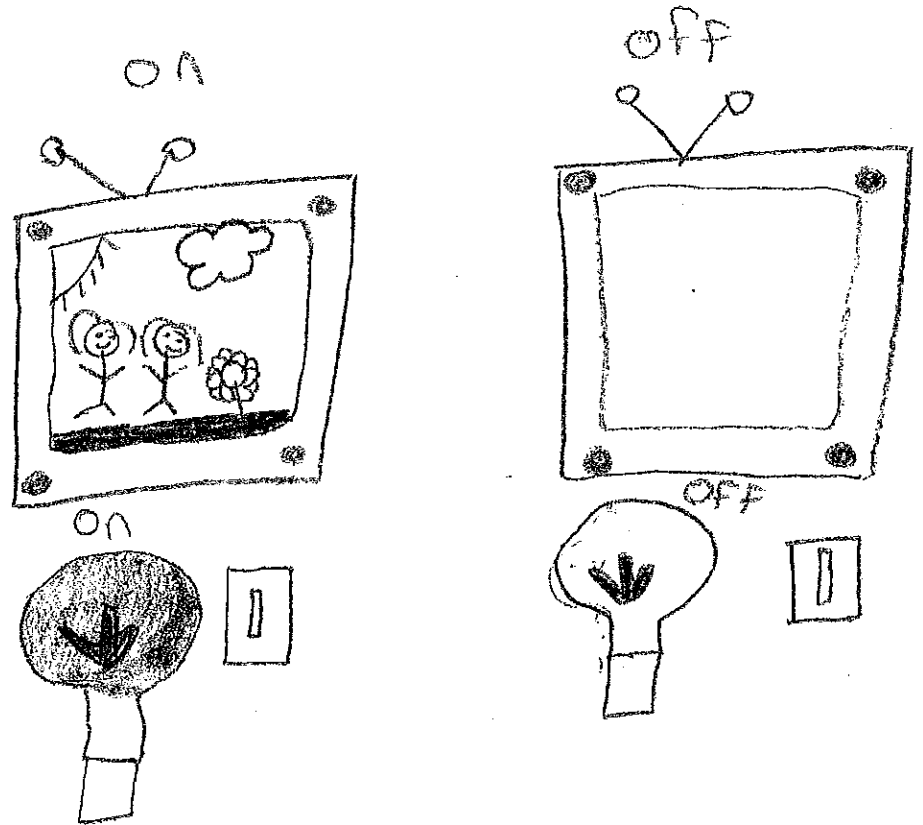

It's a kind of gas or food that gives you motion.

this is getting better

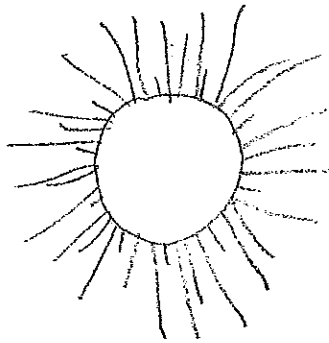

Energy can give you light and you also need energy to turn stuff on and off like a tv or a light bulb.

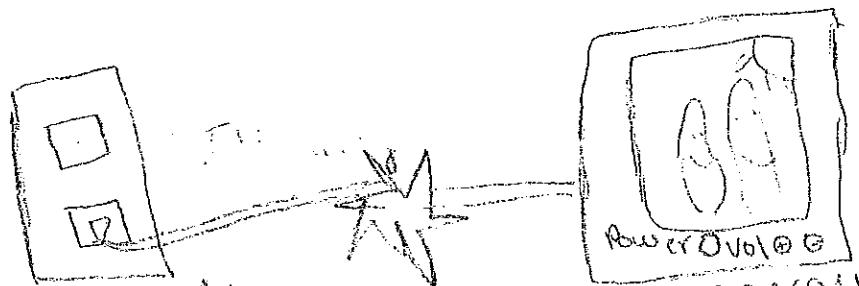

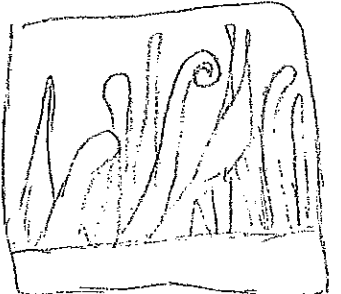

Light can be a type of energy

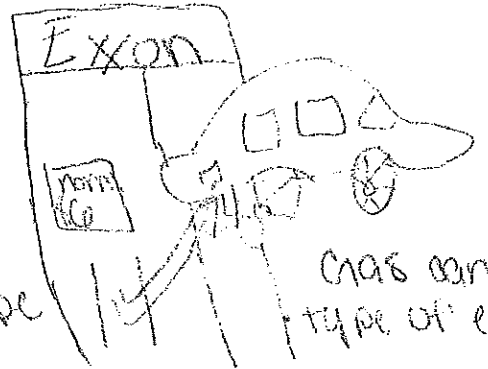

The sun can be a type of energy.

Electricity can be a type of energy.

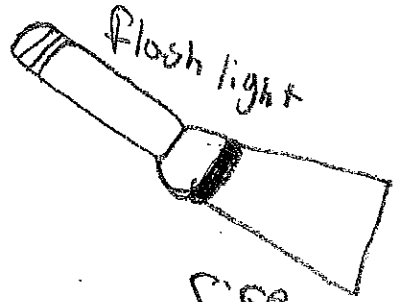

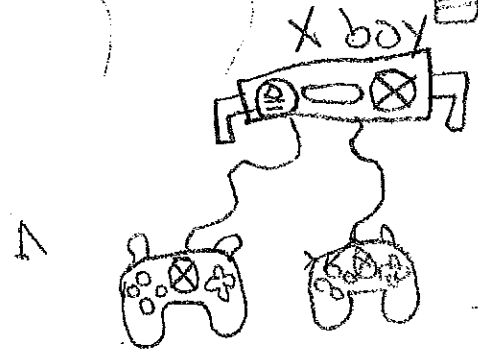

Fire can be a type of energy

Gas can be a type of energy

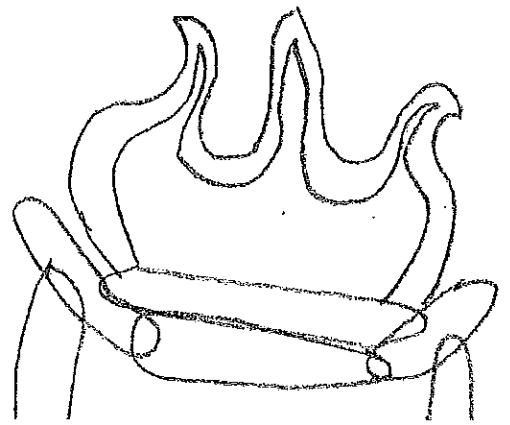

# BGE

BGE can provide gas and electricity in what we know of them are a type of energy.

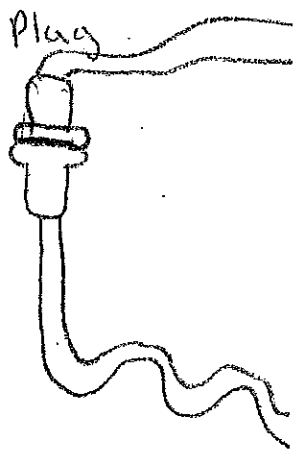

Flash light

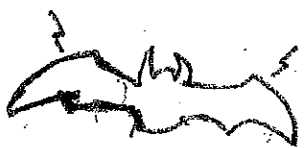

fire

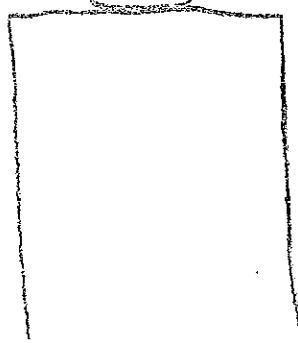

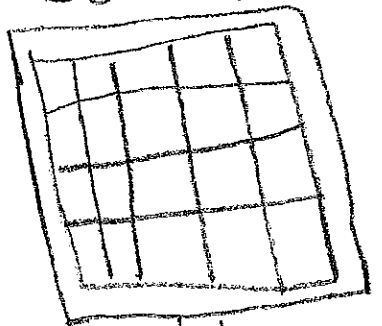

Light

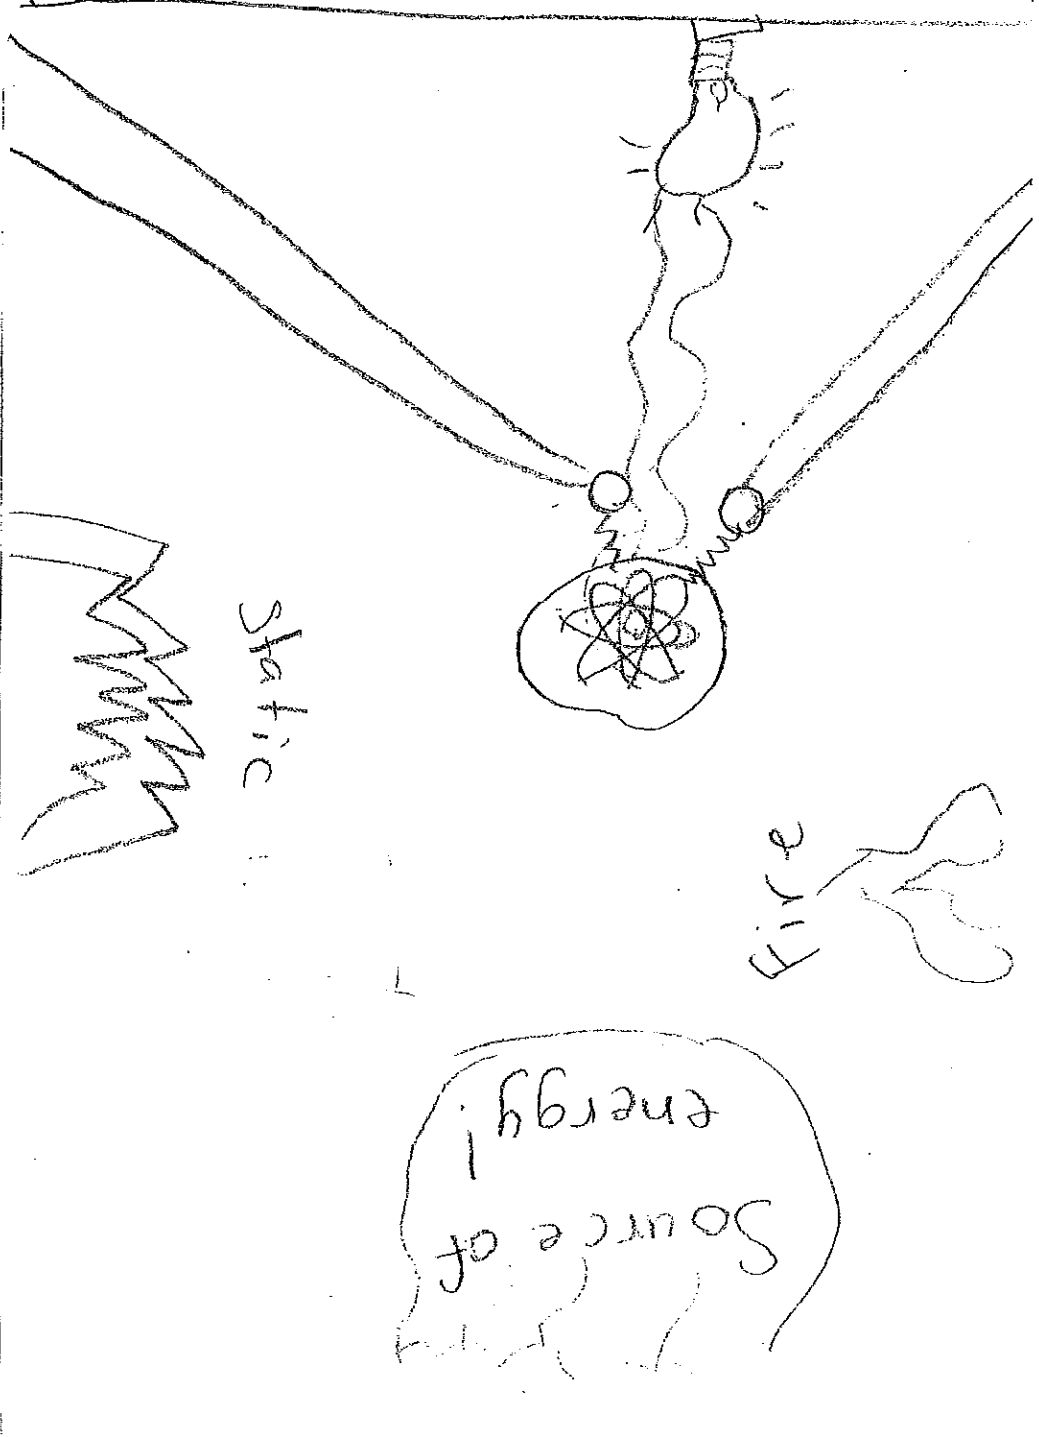

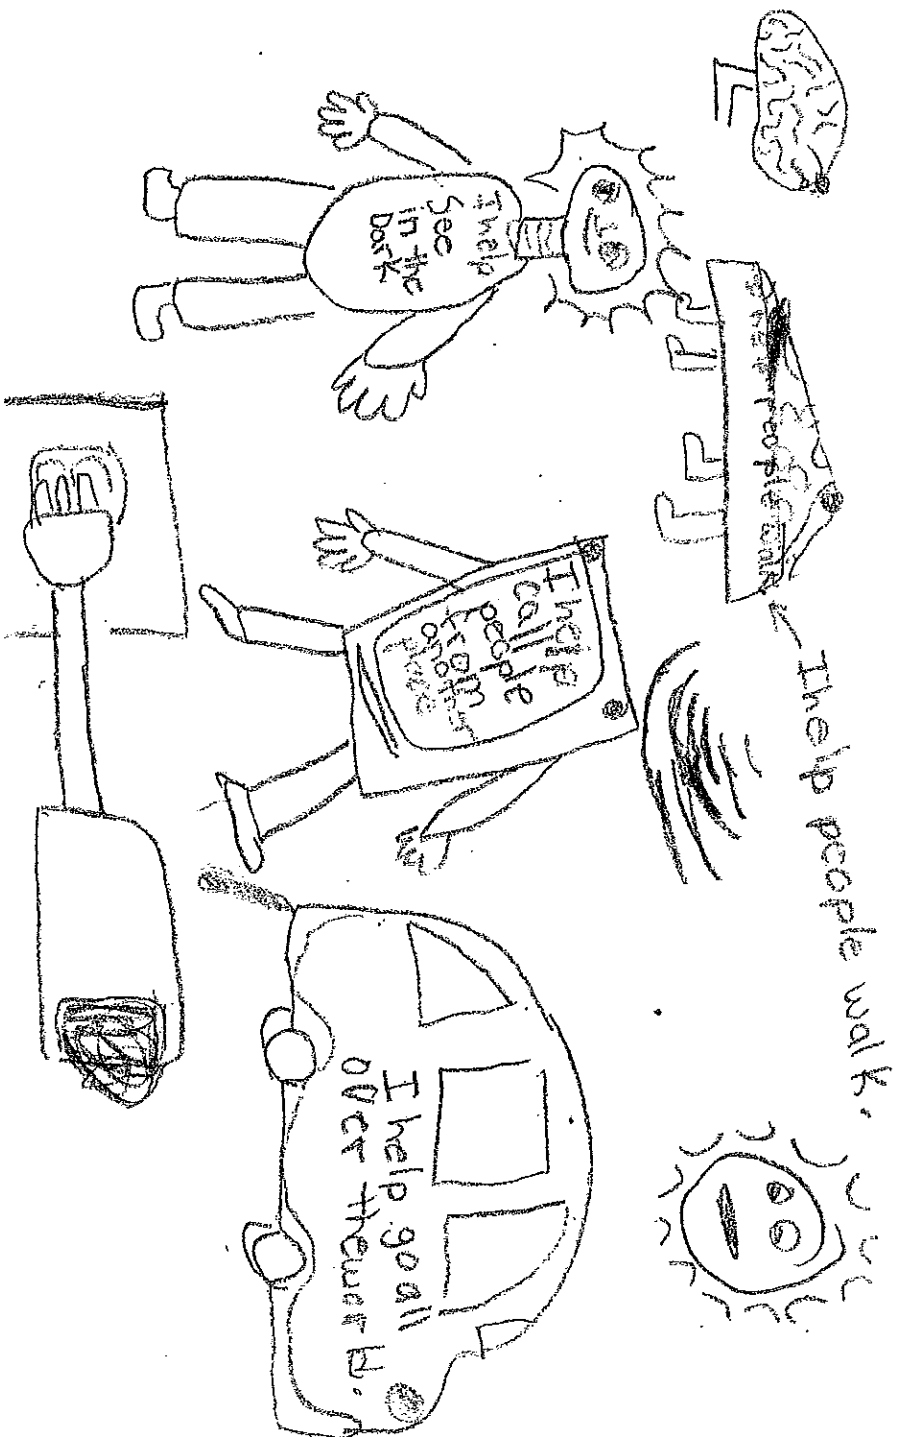

Plug

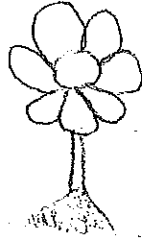

Solar panel

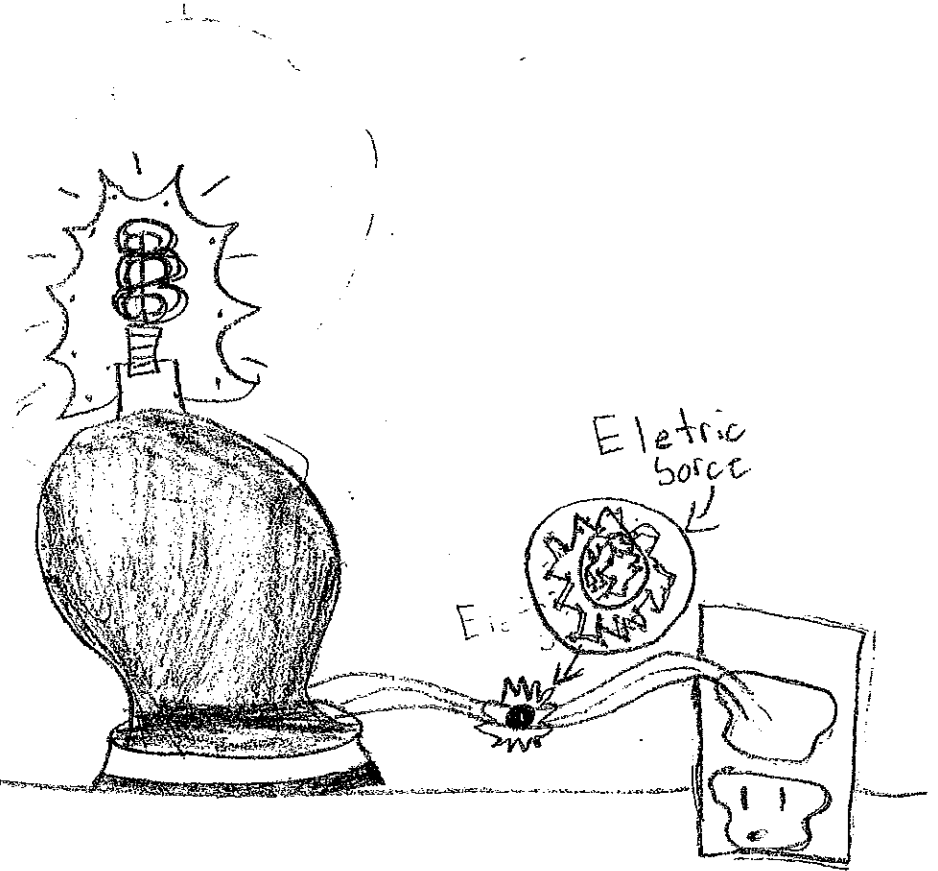

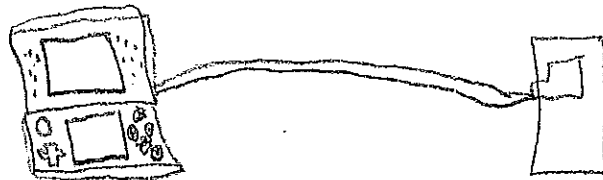

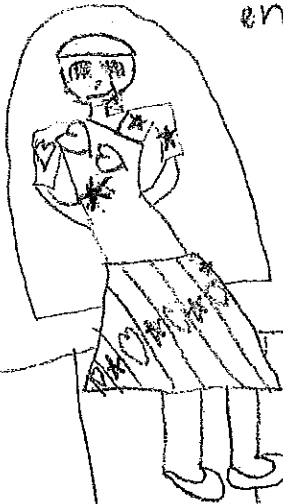

Flowers get their energy from the sun

When you are walking you are gaining more energy.

energy is the power that make thing work.
